

## INFORMATION ABOUT JUDGES APPEARING ON YOUR BALLOT

### Merit Selection of Judges

The office of judge is unique in our society. A judge is a public servant holding an office of high public trust and so should answer to the public. However, the obligation of a judge is to resolve disputes impartially and to base decisions solely upon the facts of the case and the law. A judge, therefore, should be insulated from public pressure.

Merit selection of judges was developed as an alternative to requiring judges to run in contested elections. The Judicial Article of the Utah Constitution, revised effective July 1, 1985, establishes merit selection as the exclusive method of choosing a state court judge. As stated in the Utah Constitution: *“Selection of judges shall be based solely upon consideration of fitness for office without regard to any partisan political consideration.”*

There are four steps in the Utah merit selection plan: nomination, appointment, confirmation and retention election. The nomination of judges is by a committee of lawyers and non-lawyers selected by the Governor. The judicial nominating commission nominates between three and seven of the best qualified candidates from among all applicants. The Governor appoints one of the nominees, who then must be confirmed by a majority of the Utah State Senate.

### Judicial Retention Elections

Under the Utah Constitution, judges must stand for retention election at the end of each term of office. The public has the opportunity to vote whether to retain the judge for another term. Before a judge stands for retention election, he or she is evaluated by the Judicial Council. The Judicial Council is established by the Utah Constitution as the policy making body for the judicial branch of government and is required by its own rules and by statute to evaluate the performance of all judges. As a result of the evaluation, the Judicial Council certifies whether the judge is qualified for retention election. The results of individual evaluations are published in the voter information pamphlet.

### Performance Evaluation Program

The judicial performance evaluation program is required by statute and developed by rule of the Judicial Council. The purpose of the program is two-fold:

- ◇ To provide each judge with information for his or her self improvement; and
- ◇ To provide the public with information upon which to make knowledgeable decisions regarding retention election.

The evaluation of each judge's performance is conducted every two to four years depending on when the judge is standing for retention election. An independent surveyor conducts a poll of lawyers appearing before each judge and asks the lawyer to anonymously evaluate the judge based on several criteria. In addition, a similar survey of jurors is conducted for district court judges and other judges sitting temporarily in the district court. Prior to the close of a judge's term of office, the Judicial Council reviews the results of the attorney and juror polls and other standards of performance and determines whether the judge is qualified for retention.

The Judicial Council has established the following minimum standards for judicial performance. Some standards apply to all judges and some standards apply to judges of a specific court.

- ◇ A minimum score of 70% on at least 75% of the questions on the juror survey.
- ◇ For justices of the Supreme Court, circulating no more than six principal opinions more than 6 months after submission.
- ◇ For judges of the Court of Appeals, circulating no more than six principal opinions more than 6 months after submission and achieving a final average time to circulation of a principal opinion of not more than 120 days after submission.

- ◇ At least 30 hours of judicial education per year.
- ◇ Substantial compliance with the Code of Judicial Conduct.

If the Council finds the judge met the performance standards, it is presumed the Council will certify the judge for election. - (b) formal or informal sanctions by the Supreme Court of sufficient gravity or number or both to demonstrate lack of substantial compliance with the Code of Judicial Conduct.

The Utah Supreme Court has ordered two public reprimands of Judge Young since January 1, 1991. The following is a summary of the supporting reasons for each violation of the Code of Judicial Conduct.

An order of public reprimand was issued on August 27, 1999. Canon 3B(7) of the Code of Judicial Conduct prohibits a judge from initiating ex parte communications concerning a pending proceeding. Canon 3B(9) of the Code of Judicial Conduct prohibits a judge, while a proceeding is pending or impending in any court, from making any nonpublic comment that might substantially interfere with a fair trial or hearing. The Supreme Court found that Judge Young violated Canon 3B(7) by initiating an ex parte telephone conversation with an attorney in a case over which he had presided, while the case was still pending. Further, the Supreme Court found that Judge Young's telephone conversation with the attorney also violated Canon 3B(7) because it provided information to that attorney, as to an issue in the proceeding that had not yet been resolved, that was not provided to the other party, and which had the potential of giving one side an advantage in settlement.

An order of public reprimand was issued on November 7, 2000. Canon 3B(10) of the Code of Judicial Conduct prohibits a judge from commending or criticizing jurors for their verdict other than in a court order or an opinion in a proceeding. In two separate criminal cases, Judge Young made on-the-record comments in the courtroom that were critical of the jurors' verdict.
